Dear new First Grade Parents,

Attached is a copy of the Barnes & Noble Summer Reading Program.

Also, attached is a book list of suggested first grade titles.

Included is a summer review math packet, which must be completed and returned as well.

We, as teachers at Sacred Heart School, agreed it was important for learning to continue over the summer vacation and therefore, have given each grade a reading and math packet.

Enjoy your summer!

Mrs. Rama and Mrs. Mele

Help your child to find a book that is "Just Right."

Try the five-finger rule when choosing a book:

Hold up your fist. As you try to read the book, put up a finger each time you find a word you don't know. If you get to 5 fingers before you are done with the page, the book is too hard for you.

*Avoid having your child become frustrated while reading.

Reading should be an enjoyable experience!

Summer Math Review

Please make time to work with your child on math skills during the summer; any reinforcement you can provide will greatly increase your child's comfort with first grade math concepts. Talk about everyday math concepts such as your summer schedule, measuring ingredients for a summer fruit salad, or fluctuations in the price of a gallon of gas. Practice adding and subtracting with real objects like shells and coins. Remember also to review telling time and identifying money/counting with coins as these concepts are also taught in first grade. Look for those **'teachable moments'** and have a wonderful summer!
